Dover Train Ferry Scheme—  
Gates Floating in the Dock, 12  
North Wall under construction, 12  
The Link Span in Position, 13  
Portion of Pump Chamber Culverts during erection, 13  
Inner Gate in Final Position, outer gate in Temporary Position, 14  
Caisson in Position, 14  
Mechanism of Control Room in the Pump House, 15  
Interior of the Pump House, 15  
Horizontal Base of the Pontoon before the vertical sides were fixed, 16  
Dock Gate submerging, 16  
View taken between the two gates after the water has been pumped out, 17  
One of the Ferry Steamers, 17  
Dieppe, Proposed wave-traps at—  
Plan of the Port of Dieppe, 320  
View of Model, 320  
Single wave-trap to the North of the old one at Le Pollet, 320  
The existing wave-trap at Le Pollet and three new ones of the same type, 321  
Three triangular wave-traps, 321  
Three wave-traps of trapezoidal shape, 321  
Amplifier, 321

### F

Fowey, Shipping China Clay at—  
Jetty No. 3 (left) and No. 4 (right) from the river, 65  
No. 4 Jetty, showing the large type of vessel which comes to Fowey, 66  
No. 4 Jetty. The mooring "Dolphin" is visible on the left, 66  
Jetty No. 8, showing the extent of the equipment, 67  
No. 4 Jetty. The manner in which the conveyor and chute is raised and lowered is clearly indicated, 68  
Jetty No. 8, 68

French Lighthouse Service—  
Quayside Buoy Depot at Le Havre, 159  
"La Vieille" Lighthouse and the "Flat Rock" Tower in the "Sein" Passage, 160  
Landing by derrick at "La Vieille" Lighthouse, 181  
New self-propelling Lightship, 182  
Fresh Wharf, London, Crank level luffing crane, 294  
Fleetwood-Wyre Dock Coaling Plant, 296

## ILLUSTRATIONS—continued

### Funchal, Port of—

- The Passenger Pier, 301
- View of Machico, Madeira, 302
- Caisson construction in progress, 302
- Breakwater under construction, 303
- View of Beach some 8 kms. West of the Harbour where shingle and sand for concrete, as well as small stone for the filling of the cellular blocks in the Breakwater are being excavated and sorted, 303
- Passenger Pier under construction, 304
- A Cellular Block launched into the sea by means of the slipway, 305
- Floating Crane lifting heavy stones from sea bed, 306
- Tilting Barge used for the transport and placing of stone in the foundation, 306

### G

#### Genoa, New Graving Dock at—

- A "Carack" of 1850, 221
- S.S. "Rex" docked in Basin No. 2, 221
- The four graving docks at Genoa, 222
- Model of a side Longitudinal Caisson, 222
- Set of Caissons in position, 223
- Caissons afloat alongside Moulding Yard, 223
- Model of Basin No. 4, 224
- Caissons in situ, 224
- Lateral view of a model of the Basin showing the Pump House, 225
- No. 4 Graving Dock. General View of the undertaking and its environment, February, 1937, 226
- Gdynia, Port of, the s.s. "Pilsudski" moored alongside quay, 250
- Gdynia, Port of, 252

### H

#### Hong Kong—

- View of Shipyard of W. S. Bailey and Co., Ltd., Hong Kong, 35
- Commander G. F. Hole, R.N., Harbour Master, Hong Kong, 35
- British Warships moored in Hong Kong Harbour, 36
- Chinese workmen repairing bow damage of s.s. "President Jefferson," repaired in No. 1 Dock, Hong Kong and Whampoa Dock Co., Ltd., 37
- A view showing the Royal Naval Dockyard, Hong Kong, in the foreground and Kowloon across the Harbour, 38
- Aerial view of Kowloon Docks, 38
- Shipyard of W. S. Bailey and Co., Ltd., Netherlands Co's Dredger and Two Tugs on shipways, 39
- "Empress of Japan" in No. 1 Dock, Kowloon Docks, 40
- A view of the Saikoo Dockyard and a portion of Hong Kong Harbour, 42
- Chinese Junk, the chief distributor of cargo in China, 43
- Slipways, Stores, No. 3 Dock, General Office and No. 2 Dock, Hong Kong and Whampoa Dock Co., Ltd., 44
- Eight Steel Vessels under construction in West Yard, Kowloon Docks, 44
- A view of the Taikoo Dockyard showing Canadian Pacific s.s. "Empress of Canada" in the Dry Dock, 44
- View of Channel with portion of Kowloon City, 45
- Sailing Yacht "Tai Ma Shan" in No. 3 Dock, Hong Kong and Whampoa Co., Ltd., 46
- Diagram showing Ocean-going Shipping, British and Foreign, entered and cleared, 1915-34, in Hong Kong, 47
- Diagram showing total shipping, all classes, 1915-34, in Hong Kong, 48

#### Helsinki, Port of—

- View of South Harbour, 269
- Development of the shipping trade, 1887-1936, 269
- View of West Harbour, 270
- Development of Quay from 1878-1937, 270
- View of Coal Harbour with the Gantries and Cranes for unloading Coal, 271
- View of West Harbour with the Floating Dock and Shipyard described in the article, 271
- A State Icebreaker forcing a Packice Zone, 272
- Crane erected from 1895-1937, 273
- Development of Warehouse Accommodation, 1880-1937, 273
- Handling and Ship-loading of Phosphates in exposed situations—
- 12,000-ton shore storage Bin during erection showing form of construction, 345
- The West end of the shore storage Bin and the 250-ton compensating hopper on the reef, during construction, 345
- General view of the Loading Plant at Naura showing the shore storage bin, compensating hopper and cantilever loading arms, 346

- Cantilever Piers under construction, 347
- Reinforced Concrete Piers for one of the cantilever loading arms showing the turntable, 347
- View showing the two cantilever loading arms swung inshore and made fast to the mooring masts, 348
- Two cantilever loading arms with a vessel moored ready for loading, 348

### J

#### Jaffa, Port of—

- Ernest J. Brickton, Esq., B.Sc., M.Inst.-C.E., 117
- Jaffa Port Improvements. General View of Reclaimed Area, 118
- Jaffa Port Improvements. General View of Lighter Basin taken during construction, 118
- Port of Jaffa. Cross section of North Transit Shed, 119
- Jaffa Port Improvements. Sea wall and Reclaimed Area. Retaining Wall and wet-paved Area have been constructed to cut off broken seas overtopping wall during storms, 119
- Jaffa Port Improvements. View of Breakwater during Construction, 120
- Jaffa Port Improvements. Loading oranges into Lighters from the South Transit Shed (season 1935-36) shortly after part of this shed had been brought into commission, 120

### K

- King George VI and Queen Elizabeth disembarking from H.M.S. "Exmouth," 325
- King's Lynn. General Purpose Cargo-handling Crane, 327

### L

- Liverpool, Port of, M.V. "Britannic" approaching Princes Landing Stage, 185
- London, Port of—
- General view of Shipping in the Royal Albert Dock, 246
- Sir David J. Owen, 246
- West India Docks, 1836, 27
- Howland Dock (Surrey Commercial Docks) in 1700, 248
- The Pool of London from Tower Pier, 248
- Liverpool. Dock entrance reconstruction. Liverpool Docks—Proposed new entrance lock to West Waterloo Dock, 313
